

CQ-2 Series Universal Alarm Device Of Anti-theft, Anti-robbery& Anti-loss

CQ-2 series Universal Alarm Device is a small remote control alarm device with functions of anti-losing, anti-stealing and anti-robbing. It can be easily installed in suitcases, briefcases, luggage cases, handbags and any belonging need to be protected. At any time it can warn the owner to raise vigilance. At emergency the owner can remotely activate the alarm, meanwhile the device can emit yellow smog or electric shock to force the thieves to stop their actions. Its particular "Triple-Anti" function and the flexibility are effective in protecting your belongings from losing, stealing or robbing. In addition, if you forget or stay far away from your important goods, it will also make a sound alarm to remind you. So it can be widely used in traveling and all occasions.

Main Function

1. "Anti-theft" function

Put or install it in the brief case need to be protected, open the power, when you need to leave your bags, you can choose anti-theft function by pushing the guard key on the remote control, it will make "du-du"alarm to follow its status, take the remote control with you, once the robber or thief touch any place of the object, It'll make sound alarm at once and will alarm again if being touched again.

2. "Anti-robbery" function

When being robbed, you may give up your goods first for self-protection, once the robber is far from you and do little dangerous to you, take out the remote control soon, push anti-robbery key, the device will make sound alarm together with yellow alarm smoke (CQ-2B) or electric shock (CQ-2C), which will force the robber to run away at once. Alarming sound will not stop until you push the "stop" button.

3. Anti-loss function

When traveling, put the alarm device in the luggage or within the important goods, open the power, set the switch of the remote control on "anti-loss", take the remote control with you, if you leave the goods about 3-15 far away, it will make sound alarm to remind you. If you find it is taken away by theft, use the anti-robbery function to force the theft to give up.

Series Products

1.CQ-2A alarm device with functions of anti-theft, anti-robbery and anti-loss, radio remote control

Fig1: .CQ-2A alarm device

2. CQ-2B alarm device with functions of anti-theft, anti-robbery and anti-loss, radio remote control, sound alarm & smoke alarm without color.

Fig2: CQ-2B alarm device

2. CQ-2C alarm device with functions of anti-theft, anti-robbery and anti-loss, radio remote control, sound alarm & high voltage electric pulse shock.

Fig3: CQ-2C alarm device

Main Technical Specification

Effective distance of remote control >50M

Radio frequency is 315M/433M

Effective distance of "anti-loss" is 3-15M

Sound alarm level \geq 85dB

Yellow (or red) smoke will spray when anti-robbery alarmed, only CQ-2B has this function

30KV electric pulse shock when anti-robbery alarmed, only CQ-2C has this function

Power Supply: Battery Type 23A \times 1(12V) for Remote Controller

Battery Type AA \times 4 (6V) for Alarm Device

Dimensions: 18.5cm*6cm*3.5cm (length*height*width)
